Needs on Many the Soul  
SR taught soul.

---

SR not teach being successful  
About SR competitor w/c there  
& always against competitor

---

People will try to systematize  
SR and ST can't be  
[Frankly 2 or 3 or a lot of branches]

ST - early Christian church against  
Sept - we won't be here -  
fast pray + fast - but it  
became official religion of Roman Empire  
Paul got organized - here's how  
you cut your hair, wear clothes,  
men + women.

---

SR teach soul/feeling

"Basically there are 2 minds  
2 brains & + l - 2

approaches - thinking + feeling  
w/ intellect ego soul  
Mindful practice is to  
connect these 2  
Mind is one word but one  
thing. ~~the~~ people exclude  
soulfulness - SR don't  
use soul but feeling  
People mindful today  
mechanical not soulful  
if not done w/ feeling it's  
soulless.

ST - If you bow + sit, start  
meditation, can it change  
and the soulful be revealed.  
N - Make practice to be stronger.  
ST - Question of intent - is  
there some kind of integrity  
or truth in this practice, if they  
w/ it that something goes on  
and feeling gets touched,  
opened. Maybe just do this  
and start to change.

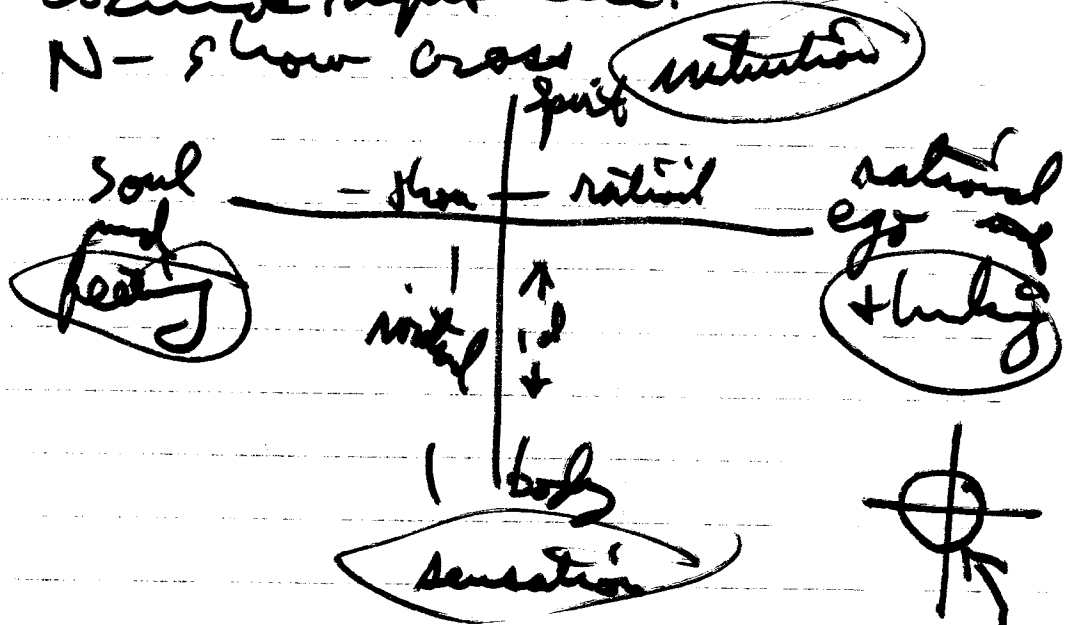

57 - some say 5, 7 + bow  
+ bow to no authority  
NH - when have 3 fruits (cognitive  
religion + art to me modal  
what you call soul, aesthetic  
feeling, you can merge true  
them to each other. goal  
beats

In Zen, religion + art just same  
down to art, nothing to do with  
in the car if you look at  
as "this is right way"  
or to be better than others  
be perfect  
but teaching not about that  
but art.

57 - Rel is want of all  
meaning, if you, so rel  
first is 1/4 form of  
all social action, relatively.  
Rel is ontology, cosmology, <sup>ontology</sup>  
in the beginning but was darkness  
2nd 1. 1st

Watts asks me - what after 3 books  
 SR should we do? He figures it out.

Real not what's right but what's good.  
 Wake up - get real - be real  
 Can experience goodness of  
 cosmic right here.

SF - this is your epistemology

SR teaching not to deny ego  
 but how things worlds together.

Bill Hunter — spanner — King & State  
 bugmen down — leader —  
 hunter — militar

Center is where it's brought together  
 feeling  
 done  
 you here  
 doing

Intend SR - SR life & teaching was simple, not under some b.g. deal out of it.

ST - metaphors of body that are tough society

HT - it's fractal, the clown has all 4 jobs, sciences have them too.

HT - religion what taught in school

ST - 12th century salvation important every village a priest  
health care for a few  
now opposite

→ that's our real religion now  
more oppressed than catholic

ST - what's point of reading book on SR life. What good is it? What does it do?

N - what I loved about book I saw him as a man who caught in a <sup>complete</sup> system - in Japan - crystalized  
I was caught in a system of building codes - built bldgs - built religion (Shyrosper I see that)

U - w/s system can't be human  
S - for safety so bldg would follow  
N - If you build for fun you'd  
be stamped out - have to be  
rational - if you speak  
another language need an  
Engineer - the priests.

SR teaching very simple  
Margret bravely asked "Why are  
I so unhappy?" SR - cause you're  
so selfish. His teaching not  
to be selfish.

S - too selfish but I love so  
I'll earn money for them.

N - that's based on ego and  
SR teaching how to bring the  
ego + soul together. He said  
don't blame others w/ this  
beautiful teaching - breaking precepts.  
He talked about precepts, not  
truth. They aren't laws but

Friday

a gift of free mind:  
S - Well, be forth and  
moral superiority.

N - SR was a clown -  
important in his teaching  
don't ~~take~~ take too seriously

Orbits so much internet e & k  
why don't? Or - ~~intentional~~  
of emptiness - play - sculpture

S - SR - feeling in practice  
and engagement w / substitution

N - SR had practice of compression

People think soul is a  
permanent object, but it's  
like truth - you can't find  
it anywhere. Use the word  
soulful - see a bldg  
~~top~~ is soulful means  
has feeling - beautiful  
means you've been feeling  
soulful - wholeness -  
alive cause it's whole -  
can't understand wholeful  
soulful practice is hitting  
into it. So taught  
whole fullness. Did he?  
Beginner's must soulful.

Neil scrubbed Nati to test  
him in baths - like we  
do in Denmark - he said yes  
and I scrubbed till he red and  
then he said here I'll do you.

N - My Koon always are the  
teachers real, pretender, or  
what - I could never catch S.K.

That seemed caught by form -  
if I sit like Buddha I'll be Buddha.

John not caught in form  
but in something else S - deeply  
and deeply. Illusion N - Koon  
a failure cause he confuses + hurts people.  
S - he said you can't rely on me!

N. answer not a pretender, knew a  
what he was

S - w/ SR did you come to point  
when you said OK - you don't  
have to prove?

N - Not when he was alive.  
I never felt I met him. Ready  
C, now I think he'd come  
to understand some of his  
teaching. I think Zen is  
about being humble - not  
pretending - arrogantly insisting you're  
humble.

S - I came to SF from Tai-San.  
He had a separate novice group  
sat once a week that I went  
to, leading. It was competitive,  
being good, being the best. So  
I had my chops sitting. Every  
2 mo. a sit off where everyone  
sat together for a couple of hrs.  
I Tai start around and out

of 30/40 people had have  
5 cards and put one behind  
the winners. I won 1st time.  
In Sanger it was ask smart  
questions.

at ZC I asked some smart  
question at lecture and  
SE showed no interest and  
didn't really answer and I  
felt he wasn't interested in  
me at that level at first  
I disappointed then liberated -  
hey I don't have to be a  
good smart guy, what an  
opportunity - held guy not  
interested in how accomplished  
I can be.

John Johnson I never asked  
him about myself but about  
breeding - how to do this, that.

N - w/SR he never said  
be like me - I just want  
you to be yourself and  
ask "how are you?"

Se - said he'd CC blurb to  
Chico who said: matrons + manors  
- and desperados and Chico  
said "That's me - you  
have to be desperate to  
learn that stuff. MISFITS

N - teaching of Christ + SR  
is we're all misfits - we're  
going to suffer + die.

Experiences of disconnection  
is such suffering and we  
try dif things - internet  
"I'm connected! I can talk to  
my in Australia." But you're always  
connected on one level.
