Dear Suzuki Roshi,-

I am sending you herewith 11 photographs taken at the time we visited Tassajara, and we both hope you like them.

I am sorry I could not send these any earlier, but this is due to the fact that we went to Japan for two months before setting out for India, by boat, and when we finally did arrive home, we found so much accumulated work waiting for us, that we had to clear off a part of it at least, before taking up fresh correspondence.

Then, all the films (which numbered over a thousand exposures!) taken during our tour to the U.S.A. Japan, Phillipine Islands etc, had to be sent to Bombay for developing and printing and for extra copies to be made for sending out, and all this took so much time. Over and above all this, both Lama and I got Hongkong Flu, so that our New Year correspondence had to be postponed till now.

We both hope that you and all the people we met at Tassajara are well and happy, and we wish you all and very happy and prosperous 1970!

With greetings and remembrances of the happy hours spent with you all at Tassajara,-

Yours Sincerely,

(Li Gotami Govinda)

P.S.

Lama wishes me to add, that he hopes you received the article for "The Wind Bell" which he sent to Allen Marlow, who forwarded to him your request. If you would like to use any of the enclosed photographs for the "Wind Bell", you are welcome to do so. Please put the acknowledgment under those used.
