

Del Carlson 1

SR - Niels - Big tall
same looked funny
walking w/ SR
he was fit
had no clothes
very hard to understand
a lot of experience/contact

Del Carlson came in
summer of '69 as your
guest - eligible for a
sabbatical - could write
or go to school - so I did Ess.
I raised X-tran / did physotherapy
jungle - partly

in India, Thailand, had read
ZC frequently to write
ZC, you Pres? See? We
had been in med group
at Stanford together - first
moving into Page etc.
She sent me Tass,
and I met # Issan.

Went Hawaii/Japan/Russia/
Thailand/Ethiopia/Europe

Struck w/ Zen and
okay to be gay at ZC
Tass. When I came
back to US, intended to
come to Tass

I fought shot Japanese in
rears in S. Pacific. # played
organ in chapel at Saipan

Enola Gay left from
across the pond.
During war, people always
packed but hardly anyone
came to memorial
transcribing service after
 Hiroshima. That struck
me and I decided that
if I got home my
major quest would
be to look for my spiritual
path - to get into
Tung and Zen.
Came to Tuss Summer
of 69. Was never
introduced to SR.

I didn't pick up any
aura or anything from
him - but so foreign.
Mike Mosphey at Stanford
told me to look him

up cause he's a true
 Dr. I recall a
 quiet dumber person
 seemed very exotica.

Tuss - all I saw was
 these crazy people -
 2nd year at that tangy
 you said keep you back straight
 only instructions
 only you (DC) + Diana
 made me feel comfortable
 Ed Reg set up right
 no one smiled
 encouraged not to
 greet people + say hello
 It's in my late 30s
 It's known beat scene
 It had LSD, and all
 at Stanford in psychiatry
 dept - It was involved

See folks in old jobs

I feel needed + accepted

ZC very excited when ^{SR} BR

going on in the sense
of thrill now.

Struck by all the men coming
out of dorm (Women)
1st time came to class.

Very woman oriented for
a long time and some
men resent that.
